About Course

Nutri World is excited to announce an exclusive Masterclass on Medical Nutrition Therapy (MNT) for Autoimmune Diseases, designed to provide in-depth knowledge and practical strategies for managing autoimmune conditions through nutrition. This masterclass will cover evidence-based dietary approaches, personalized meal planning, and the role of anti-inflammatory foods in supporting immune health. Led by experienced dietitians and healthcare professionals, the session aims to equip students and professionals with the skills to develop effective nutrition interventions for conditions like rheumatoid arthritis, lupus, and more. Don't miss this opportunity to enhance your expertise and make a meaningful impact in the field of clinical nutrition.

₹1000/-

(FOR 2 MONTHS)

(After enrolment fee cannot be refunded at any circumstances)

Disclaimer

This training program/course is not designed to qualify participants as dietitians or to use the title of a dietitian. Becoming a legitimate dietitian or nutritionist requires a minimum of five years of formal education at a recognized college or university. This typically includes pursuing advanced degrees such as a Master's in Food & Nutrition, Food Science, or Dietetics, complemented by a practical internship in a hospital setting. Additionally, it is advisable to pass the national Registered Dietitian (RD) examination to achieve professional recognition in this field. Please note that our program does not support or advocate for short-term crash courses that claim to certify individuals as dietitians in an unrealistic timeframe. Our aim is to provide foundational knowledge and skills, not to replace the extensive education and certification required for dietetics professionals.
